Claims 6,17,19-25,47,49-54,70,72-79,83-96,100-104,108-112,114-120,122-124 and 126-129 are allowed.

This application is in condition for allowance except for the following formal matters: This application is objected to under 37 CFR 1.172(a) as lacking the written consent of all assignees owning an undivided interest in the patent. The consent of the assignee must be in compliance with 37 CFR 1.172. See MPEP § 1410.01.

A proper assent of the assignee in compliance with 37 CFR 1.172 and 3.73 is required in reply to this Office action.

This application, SN 09/986,346, is a Continuation Reissue application of Reissue application SN 09/442,082, now U. S. Reissue Patent No. RE37974. From M.P.E.P. §1401.01:

"Where a **continuation** reissue application is filed with a copy of the assignee consent from the parent reissue application, and the parent reissue application is not to be abandoned, the copy of the consent should not be accepted. Where a **divisional** reissue application is filed with a copy of the assignee consent from the parent reissue application, regardless of whether or not the parent reissue application is to be abandoned, the copy of the consent should not be accepted. The copy of the consent from the parent does not indicate that the assignee has consented to the addition of the new invention of the divisional reissue application to the original patent, or to the addition of the new error correction of the continuation reissue application. (Presumably, a new correction has been added via the continuation, ">because< the parent is still pending.)"

As this application is a Continuation application of a Reissue application that is not abandoned, as indicated by Reissue Patent No. RE37974, and that the current Consent Assignee (Assent of Assignee filed March 6, 2002) is in fact a copy of the consent (assent) filed in the parent reissue application, the current consent of assignee

is not acceptable for the reason that the copy of the consent from the parent does not indicate that the assignee has consented to the addition of the new error correction of the continuation reissue application.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
